iClicker Quizzing - Instructors

Students can use their mobile devices or iClicker remotes to take quizzes. Quiz questions are limited to the multiple choice question type. All of the questions that you would like to ask the students should be included on one screen, or alternatively, give on paper.

Here are the step by step instructions to run iClicker quizzing questions:

1. Log in to your iClicker Cloud Account.
2. Select a course.
3. Click on the dropdown menu “Start Polling Session”, then click “Start Quizzing Session”.
4. Give a name to the quiz, the number of questions, number of points per question, then click “Start Session”.
   Note: Once you start the quiz, students can join the quizzing session and respond to questions.
5. Open your quizzing questions, then click “Quizzing”.

6. Stop the quiz once your students have submitted their responses. 
   Note: Student responses are always recorded and saved as they go.
7. Click “Answer & Results” to visualize students’ responses.

8. Click on the question name to navigate between questions.
9. Select and click on a bar to grade the question. The correct answer bar will turn green and incorrect answer will turn red.
   Note: Click to select and deselect an answer bar.

10. Click on the checkbox “Allow students to view graded results and feedback”, then close all windows to finalize your quizzing question session.
