Calculation of High School Average for Time Ticket assignment................................................................. 3
General Information

Registration Access Times (time tickets) are generated and made available to students in Aurora Student a few days before fall/winter registration opens on each campus. Visit http://umanitoba.ca/student/records/registration for applicable dates each year.

Note: Time tickets should not be loaded manually prior to the generation of time tickets.

Registration group tickets are generally assigned starting at 9:00 a.m., 11:00 a.m., and 2:00 p.m. In some cases, there may be four group tickets assigned at 9:00 a.m., 11:00 a.m., 1:00 p.m., and 3:00 p.m. Students have access to web registration 24 hours/day from their first day of access until 23:59 p.m. on the day registration closes.

Every year, students contact the Registrar’s Office, Admissions Office, or their faculty with what they believe are incorrect time tickets. Time Tickets are not typically changed once available in Aurora Student, although there are some exceptions.

First, it should be determined if the time ticket is incorrect using the scenarios below. Corrections are made by the Registrar’s Office, Admissions Office, or the student’s faculty, depending on the scenario.

The following resources are available to determine the correct time ticket:

- Registration Schedule (distributed prior to the start of registration).
- Registration Groups with GPA/HS average ranges (internal document only)
- Student Record (SGASTDN, SHADEGR, SWAHSGR, Advisor Transcript, Registration History)

To Change a Time Ticket

1. Identify the issue and determine whether a change is required based on the scenarios below.
2. If change is required, go to SFARGRP.

3. Enter in the student ID in the ID field and term in the TERM field. Click GO.
4. Click the LOOKUP button [...] to see the REGISTRATION GROUP CONTROL CODES.
5. Select the correct group code from the list. Please note: you may need to use the arrows to see more codes. Once you have selected the code needed, click OK.

6. Make the change in both the Fall Term and the Winter Term.
7. Press SAVE (bottom right corner).

Calculation of High School Average for Time Ticket assignment

The average of ALL 40S, 42S and 42U courses is used to assign a registration time for Manitoba high school applicants. If calculating the average of high school courses to assign a time ticket manually, please use all 40S, 42S and 42U courses. High school courses are listed in two places: SWAHSGR or in AY in the Direct Entry section of an application.

Note: as of Fall 2018, courses with code 42U will not be assigned a percentage grade – they will be assigned standard grades. Therefore, these courses will not be used in calculating the high school average for time ticket assignments.
Out of province and international applicants are assigned a time ticket using different criteria and are as indicated in the registration time chart below.
